Payment Security Information

At OTPWALL (https://otpwall.online), your online safety and payment security are our highest priority. We ensure that every transaction made on our platform is processed through secure and certified payment systems.

1. SECURE PAYMENT PROCESSING

- 1When you recharge your **virtual wallet** or make any purchase using your bank card, the entire payment process (including card number entry) takes place on a **secure page of a certified payment processing system.**

- Your confidential data — such as card details, CVV codes, or registration information — are **never stored or accessed by OTPWALL.**

- All sensitive information is directly transmitted to the payment processor through a secure encrypted connection.

2. INTERNATIONAL SECURITY STANDARDS

- Our payment partners comply with the Payment Card Industry Data Security Standard (PCI DSS), which is developed by Visa and MasterCard to protect cardholder data.

- PCI DSS ensures that all transactions are processed in a safe and reliable environment with multiple layers of protection against fraud and unauthorized access.

3. ADVANCED PROTECTION TECHNOLOGIES

To safeguard your payments, the following security technologies are applied:

- **TLS (Transport Layer Security):** encrypts all data transfers during online payments.

- **Verified by Visa & MasterCard SecureCode:** additional authentication for extra protection.

- **MIR Accept Protocols & Closed Banking Networks:** ensure maximum security against fraud.

- **Multi-layer firewalls and monitoring systems:** continuously protect against suspicious activities.

4. WHAT THIS MEANS FOR YOU

- OTPWALL never stores or processes your bank card details.

- Even our staff cannot access your card information at any point.

- Your transactions are protected end-to-end by globally recognized financial security standards.

- You can make payments with **full confidence** knowing that your funds and data are secure.

5. CONTACT US

If you have any questions about payment safety or security measures, please contact us:
